Raising Funds for Early Intervention of childhood disabilities

This is HCI's flagship project cosponsored by Grand Challenges Canada on a donation matching basis. We offer EI therapy (Physio, Occupational, Speech, Special ed., life skills), assessments and follow ups for 900 children with delayed development and conditions such as Cerebral Palsy, from 800 rural villages in Thirunelveli Dist., South India. This project is successfully implemented at Amar Seva Sangam, India. This has become the model project and currently undergoing scale-up to the state level in Tamil Nadu.
