Comments

Warden: He is good in his studies but overall improvement is needed. He dances well.
He is interested in drawing and Sports.

Barring very few, the academic performance of most of the disabled students of the home especially those with CP, is poor. For CP Children due to their disability, they are not able to Concentrate on their studies. More importance is given to their Medical Rehabilitation and to infuse confidence in them to interact freely with normal people. Therefore their academic performance is considered secondary. However efforts are being made to enhance their academic standard.

Message from the child

I am studying well. Thanks for your help.
